

Qibbel

Produced by Widek B.V., the Netherlands

Left.
Right.
And straight ahead.

For that, you have the lightest child seat
of the Netherlands.

Discover the world
together by bike

For popping into the bakery, swimming
lessons or going on a nice ride together.
With the Qibbel bike seats you can take
your children anywhere with you. From the
age of 9 months to 3 years in the front seat
and up to 6 years in the rear seat.

The back support is made of mesh, a very
light material that is also used in office
chairs. The material is hard-wearing,
breathable and easy to keep clean.
Practical and comfortable, as
all things should be.

made in NL

A child seat
in the color
that suits you.

Laughing
Giggling
Enjoying.

Accessories for every
child seat
that fulfil your wishes.

With an enthusiastic baby and a bag full of things, you want to be able to adjust your child seat quickly. We understand that. That's why the Qibbel Air belts, foot straps and footrests are even easier to adjust. Furthermore, the safe five-point belt ensures that your child is properly secured.

Picking your child up from school? Or a lift to Grandma and Grandpa's house? Even if your child can already cycle, it is a great idea to have an extra seat for them. One that is safe and fits well.

Qibbel's bike seats are suitable for children aged 6 years and over. The Qibbel 6+ Junior seat is very sturdy, has a safety belt system and foldaway foot rests.

The seat is suitable for children weighing up to 35 kilos, so it's super strong. Ask your bicycle mechanic if your luggage carrier can support this weight.

Ready to go: out of the box and onto the bike

Nervous about assembly? Not necessary. Check our YouTube channel for detailed videos.

The front seat
The front seat can be secured on bikes with a standard handlebar stem and an ahead stem. This creates a wide range of 22 to 36 millimetres, which our seats are compatible with.

The rear seat
Best of all, the rear bike seat can be fitted to the luggage carrier of the bike instantly. You rotate the designated button and you are ready. To remove the seat you can use the double secured unlocking system at the rear. This can all be done without using a screwdriver.

No luggage carrier on your bike? It's still possible to attach our child seats. With our frame attachment, you attach the bike seat to the bracket above the rear wheel.
