TECHNICAL DATA

- Hardened 27 mm square parabolic shackle with plastic coating
- The lock shackle and body are better protected against brutal cutting attacks by battery angle grinders thanks to a special tungsten carbide compound material
- Double locking of the shackle in the lock body
- The shackle, housing and structural parts of the locking mechanism are made of specially hardened steel
- ABUS XPlus™ cylinder for extremely high protection against manipulation, e.g. picking
- ABUS Power Cell technology offers maximum protection against impacts and attempts to break open the lock
- Two keys included in the scope of delivery
- ABUS Code Card for spare and replacement keys
- Flexible and firm holder fixation with coated metal fixing straps

6500A SmartX

SmartX RC

Can be operated
with iOS and
Android smartphone
or via optional
Smart RC
remote control
(sold separately)

Visit our
campaign website

TECHNICAL DATA

- 5.5 mm thick bars, with extra-soft 2-component coating
- Easy operation via the ABUS One app (previously SmartX) – for iOS and Android
- Bike lock can be opened and locked without a key – keyless function based on proven ABUS SmartX™ Bluetooth® technology
- Alarm function with min. 100 dB for 15 seconds, then automatic re-arming
- 3D position detection – detects vibrations and the smallest of movements in all three dimensions and triggers an alarm
- Smart alarm – the lock only emits a short warning tone in the event of minor and brief vibrations, e.g. if a football bounces nearby
- USB-C port
- Storage of the bike's last parking location
- LED light indicates battery and charging status
- RC variant can be operated via included remote control (for all other variants, the remote control is available separately)
- Incl. holder (SH)

TECHNICAL DATA

- Strong wall anchor made of hardened steel
- Incl. mounting material

SPORTFLEX 2504

TECHNICAL DATA

- Very lightweight and space-saving cable lock for mounting under the bottle holder
- Mounting by means of two screws included in the scope of delivery at the attachment points on the frame tube of the bicycle
- Low profile of 20 mm enables mounting under an existing bottle holder
- Self-retracting cable
- Opening code can be set individually
- Ideal for protection against opportunistic theft

GENERAL TERMS AND CONDITIONS

1. General

- 1.1 For all business relations between the customer and us the following terms and conditions apply unless otherwise agreed explicitly in writing.
- 1.2 Our offers are non-binding and only take effect with our written order confirmation or if we have arranged delivery of the ordered goods. The acknowledgement of receipt of an order does not constitute a legally binding acceptance of an offer. Drawings, illustrations, measurements, weights or other kinds of performance data are only binding if this is expressly agreed in writing. Commercial deviations and deviations caused by legal regulations or technical innovations, as well as replacement of parts by equal parts are acceptable as long as they do not adversely affect the usability of the contractual intended purpose.

2. Delivery

- 2.1 The delivery time is only agreed as approximate. It begins on the day on which the order confirmation is sent and is deemed to have been met if the goods have left our factory at the agreed time or, if it is not possible to send the order, the customer has been informed of the readiness for dispatch. In the event of delay an appropriate grace period must be set. Partial deliveries are allowed to a reasonable extent.
- 2.2 If we are prevented from fulfilling our delivery obligation by the occurrence of unforeseen or exceptional events that we were not able to avert despite due diligence in accordance with the circumstances of the individual case, e.g. official interventions, operating faults, force majeure, epidemics, global pandemics with impact on the supply chain, delay in the delivery of raw materials, etc. the delivery time shall be extended to a reasonable extent. If the delivery or service is not possible due to the above-mentioned events we will be released from our delivery obligation without the customer being able to cancel their contract or claim damages.
- 2.3 Unless otherwise expressly agreed, we shall deliver "Ex Works" (Incoterms® 2020). If delivery "Ex Works" (Incoterms® 2020) is agreed the risk will pass to the customer as soon as the consignment has been handed over to the person handling the transport or has left our warehouse for dispatch.

3. Pricing

- 3.1 Unless otherwise expressly agreed our prices are net Ex Works (Wetter /Ruhr) and include packaging and dispatch.
- 3.2 In the case of a third-party delivery for which the customer has agreed the direct delivery of the goods they have ordered to their customer we charge additional EUR 14.90 net per delivery within Germany, EUR 19.90 net per delivery within the EU.
- 3.3 Minor and minimal orders will be charged for at a proportion of costs from the current pricelist.
- 3.4 Orders for which fixed prices have not been expressly agreed will be charged in accordance with the prices valid on the day of delivery.
- 3.5 The prices of purchased items are quoted plus VAT. Changes to the rate of VAT entitle both parties to adjust their prices accordingly.
- 3.6 In the case of fixed prices agreed within the context of longer-term contracts, should a significant change of price factors occur, e.g. the price of raw materials, wages and salaries, the underlying exchange rate, etc. we can change the price accordingly.

4. Payment conditions

- 4.1 Our invoices are payable within 30 days net. If the customer concluded a SEPA Direct Debit agreement with us we grant a 2% discount for invoices covered by it.
- 4.2 No discount may be claimed if there are outstanding invoices to be paid. If an invoice paid with a credit note was calculated with a discount, we are entitled to deduct an appropriate discount deduction from the value of the credit note.
- 4.3 The customer is obliged to check our invoice immediately after receipt. The customer must raise any objections in writing to us within six weeks of receiving the invoice. The invoice will be deemed to be accepted after this period has elapsed.
- 4.4 If the credit term is exceeded we are entitled to charge default interest pursuant to Section 288 German Civil Code (BGB).
- 4.5 We are entitled to offset payments of the customer against their older debts first and will inform the customer about the nature of the offsetting. If costs and interest have already accrued, we will be entitled to offset payments against the costs first, then against the interest and finally against the main service.
- 4.6 A payment will only be deemed as having been made once we have access to the amount. In the case of cheques, payment is only deemed to have been made once the cheque has cleared. Bills of exchange will only be accepted on account of payment by arrangement and under the condition that they can be discounted. Discount charges will be calculated from the due date of the invoiced amount. Discount deductions are excluded.
- 4.7 If, after conclusion of the contract, a significant risk arises in respect of payments due to us, we will be entitled to demand a prepayment or security and to refuse the delivery until our requirements have been met.
- 4.8 Offset and retention rights are only available to the customer if their counter-claims have been legally established, are undisputed or have been recognised by us. The customer can only claim a retention right on the basis of counter-claims arising from the same delivery/service.

5. Return of goods

- 5.1 Returns of goods are only possible if they have been expressly agreed on a case-by-case basis. Goods must be returned in their original packaging and be free from freight charges.
- 5.2 For all goods returned we charge a flat-rate processing fee of 20% of the customer's product purchase price. If the cost of processing is higher, this will be invoiced separately.
- 5.3 Custom-made products as well as faulty or damaged goods are categorically excluded from returns. This also applies to products that we no longer have or have in a modified form in our range.

6. Reservation of title

- 6.1 The goods remain our property until all claims arising from the business relationship have been paid. The inclusion of individual claims in a current invoice as well as the balancing and its recognition shall not affect the reservation of title.

- 6.2 The customer is entitled to resell the goods delivered by us in the proper course of business as long as they fulfil their obligations arising from the business relationship. The customer may, however, neither pledge the reserved goods nor assign them as security. The customer is bound to secure our rights on resale of the reserved goods on credit.
- 6.3 The customer is obliged to handle the item with care; in particular they are obliged, at their own cost, to adequately insure it against fire, water damage and theft at their original value. Provided that maintenance and inspection work is required, the customer must carry this out promptly and at their own expense.
- 6.4 We are entitled at any time to request the surrender of reserved goods if the customer is in default of payment.
- 6.5 If the customer sells the reserved goods on credit, and thereby assigns to us the claims resulting from this resale of the goods, we shall accept this assignment. The client is entitled to collect claims as long as they fulfil their obligations towards us. The client is entitled, at our request, to name the third-party debtors and notify them of the assignment.
- 6.6 We undertake to release the securities, in accordance with the aforementioned provisions, at our choice at the customer's request insofar as their value exceeds the claims to be secured by 20%.
- 6.7 The customer must inform us immediately about any third-party enforcement measures against the reserved goods or any claims assigned to us or other securities and indeed hand over any documents necessary for an intervention.

7. Warranty and liability

- 7.1 Obvious defects must be notified in writing immediately after receipt of delivery, hidden defects must be notified in writing immediately after their discovery.
- 7.2 In the case of defectiveness of the purchased item we have first the right to rectification whereby we can refuse theretofore alternative chosen by the customer under the requirements of Section 439 para. 3 of the German Civil Code (BGB). If we refuse both types of rectification in accordance with Section 439 para. 3 of the BGB or insofar as the rectification failed or is not acceptable to the customer, the customer is entitled to further claims for damages in place of rectification and withdrawal. A rectification is deemed to have failed after the second unsuccessful attempt unless, in particular, the nature of the item or the defect or other circumstances indicate otherwise. Any claim for damages made by the customer in place of performance is, in the case of negligent breach of duty by us or our vicarious agents, limited to foreseeable damage typical of the contract.
- 7.3 No warranty is assumed for damage caused by inappropriate or improper use, defective assembly or commissioning by the customer or a third party, natural wear and tear or negligent handling or maintenance, unsuitable operating equipment or replacement materials, defective fitting, chemical, electro-chemical or electrical influences or other influences, (e.g. water, frost, heat). Our warranty obligations also do not apply, if on the part of the customer or a third party, repairs, damage or changes are undertaken without our consent that have a causal connection with the defect being claimed for.
- 7.4 The warranty is valid for one year from the date of delivery of the item purchased.
- 7.5 Our technical advice, both orally and in writing and proposals, calculations, project plans, etc. should outline only the best possible use of our products to the customer. This does not release the customer from their obligation to examine the products themselves in order to ensure that they are satisfied with their suitability for their intended purpose.
- 7.6 Complaints of any kind can only be taken into consideration if they are communicated in writing within 10 days of receipt of the shipment. In the case of defects that are not immediately obvious, they must be communicated in writing immediately after they have been identified, within six months after receipt at the latest. In the case of delayed notification of defects all warranty claims are excluded.
- 7.7 Unless otherwise expressly agreed, compensation claims from the customer against us for whatever legal reason, in particular due to the violation of contractual obligations and unlawful acts are excluded. This shall not apply in cases of intent, gross negligence (of owners, legal representatives or senior employees) or fraudulent intent and in the case of liability according to the German Product Liability Act or due to culpable injury to life, body or health or due to culpable violation of essential contractual obligations. Provided that none of the other above-mentioned cases exists, the claim for damages for the violation of essential contractual obligations is, however, limited to foreseeable damages typical of the contract.

8. Property rights

- 8.1 The proposals, offers, illustrations, drawings, calculations and other documents produced by us in any form are our intellectual property and are therefore to be treated as confidential. You may only bring these to the attention of a third party with our consent.
- 8.2 The operating materials manufactured by us for the production of the contractual objects on behalf of the customer, in particular tools, devices, documents, etc. remain our property even if the contractual relationship comes to an end and will only be delivered to the customer after the contract has been terminated if they were invoiced separately.
- 8.3 The customer is solely liable if, by the execution of his order, rights, in particular industrial property rights of a third party, are violated.

9. Place of execution and court of jurisdiction

- 9.1 If one or more terms of these terms and conditions of purchase proves wholly or partly invalid or incomplete, this shall not affect the validity of the remaining terms. The contracting parties shall make every effort to replace the invalid term with one with the same economic intent. The same applies in the event of a loophole.
- 9.2 The business relationship with the customer shall be governed exclusively by the law of the Federal Republic of Germany to the exclusion of the United Nations Treaty on the International Sale of Goods (CISG), dated 11 April 1980.
- 9.3 The place of execution for all obligations arising from the contractual relationship is Wetter / Ruhr, Germany.
- 9.4 ABUS and the customer shall first attempt to resolve all disputes arising from or in relation to the contractual relationship between them out of court. If an out-of-court solution is not possible, Wetter / Ruhr shall be the exclusive place of jurisdiction. ABUS reserves the right to sue the customer at its registered place of business.

We do not undertake any liability for modifications in technology, changes in colour and errors. ABUS 06/2024
