# BOXO Tools

In addition to the bicycle tools, BOXO Tools has a wide and deep range of professional hand tools. Basic sets range from 203 to 619-pieces and everything in between. In addition to that you can choose from many separate tools and toolsets (in inlays) that allow you to completely personalize your trolley.

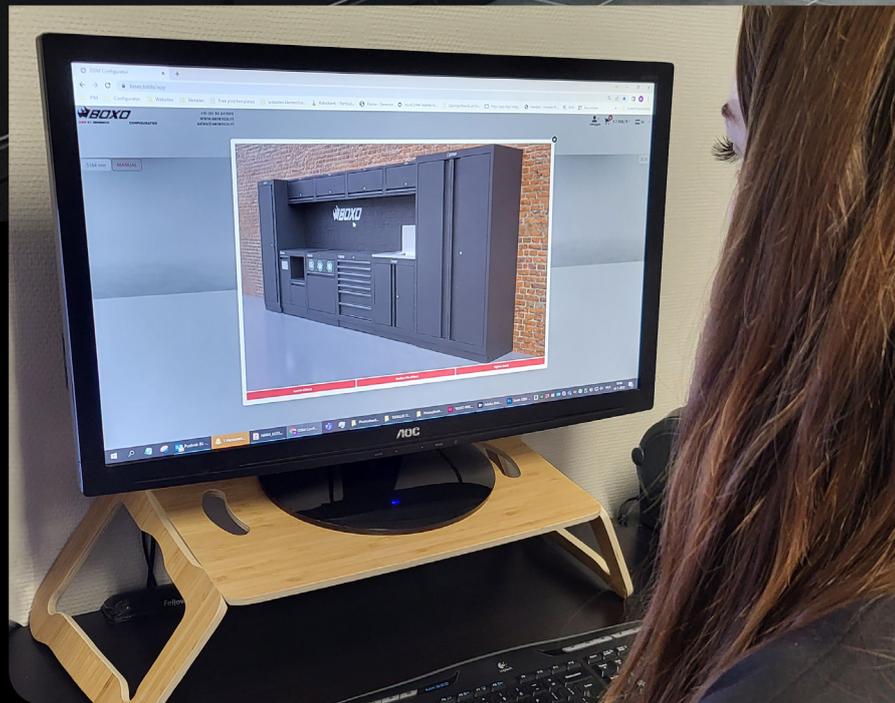

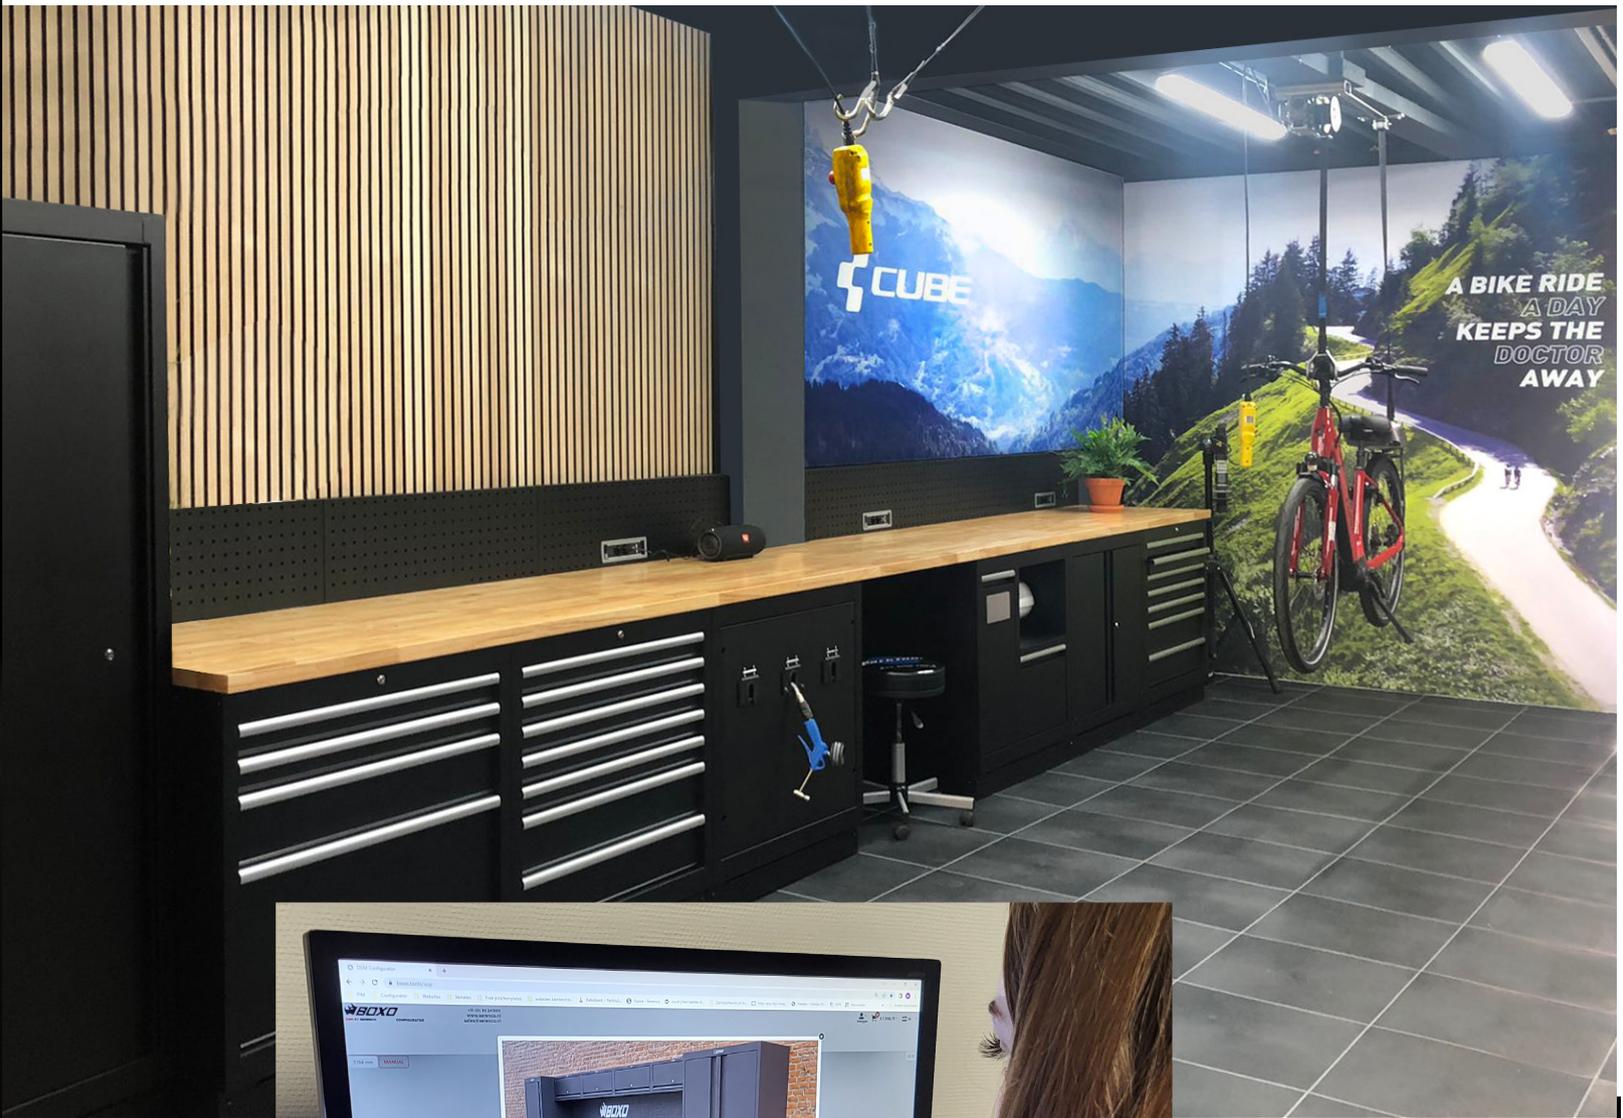

# Combinations for Organized Storage Modules

Are you familiar with BOXO OSM? This wonderful range of workshop storage systems is currently leading the way in the various European markets. Extremely attractive, very efficient, high quality and an excellent price/quality ratio.

Tailor your workspace to suit your storage needs with the BOXO OSM (Organised Storage Modules). With an extensive range of options to choose from and the flexibility of ordering cabinets individually, the BOXO OSM system provides a unique and flexible storage solution.

In this brochure, we show you several example combinations and successful projects. BOXO focusses on product research, design, durability, quality control with a real life testing facility to make customers needs fulfilled.

BIKE TOOLS BY SERENCO

"I have been wrenching on bikes for years and know better than anyone that a disorganised and messy workshop drastically reduces my efficiency. With my all-new BOXO OSM workshop equipment, I never miss out on tools and parts again and work much faster and more pleasantly that way".

Leo Steijn, Bicycle mechanic, inspiration, advisor and influencer
