

Our bikes are tested according to the German standard for Cargo Bikes, DIN 79010:2020 , TÜV tested and CE marked.

The Perfect World Foundation is a charitable organization founded in Sweden, who works worldwide with animals and nature in crisis.

We compensate for the climate impact by planting a tree for each bicycle sold in "Attenborough Forest" in Zimbabwe.

#Attenboroughforest

Designed and manufactured in Sweden

Our bikes have been tested for over fifteen years in our Scandinavian climate. Cargobike of Sweden stands for responsible craftsmanship, security, knowledge and service. We put our hearts into our bikes, from design to assembly.

Safety first

Our bikes are tested according to the German standard for Cargo Bikes, **DIN 79010:2020**. This standard includes unique test requirements for brakes and parking brakes, higher load-bearing tests for frames and forks, additional child passenger safety tests, and more. **All our bikes are TÜV tested and CE marked.** We believe in safe travel and in bikes built to last a long time.

Since 2007

Cargobike of Sweden has been building Cargo Bikes since 2007 and have a network of resellers established throughout Europe. Many of our resellers are connected to us as **authorized Cargobike test centers**, which provides benefits for the end customers.

Cargobike Delight

Our premium model. A powerful 110Nm integrated mid-motor and alloy rims are just a few of this bike's strengths. One frame, four different models.

Cargobike Delight with canopy

Cargobike Delight

Four seats with safety belts as standard.

Cargobike Delight Dog

Two seats with safety belts and a transparent front door for easy access.

Cargobike Delight Box

Larger box with lid.

Cargobike Delight Kindergarten

Six seats with safety belts as standard.
Transparent front door for easy access.

Everything is in the details

Our bikes are designed for your most precious cargo and you as a bike owner.

Bring your best friend

There is plenty of space to carry more than just your furry companion. The transparent front door makes loading and unloading even easier. Two seats with safety belts as standard.

For the professionals

Our larger box is the craftsman's first choice. We have developed our box with professionals who see the benefit of replacing their car with a practical Cargobike.

Kindergarten Adventures

The ultimate transportation for preschools. Turn the journey into a learning experience, allowing 6 children to experience the adventures of both the city and the countryside.

Cargobike Flex

Our standard model. Rear hub-motor, alloy rims and hydraulic brakes are just a few of this bike's strengths. One frame, four different models.

Cargobike Flex

Four seats with safety belts as standard.

Cargobike Flex Dog

Two seats with safety belts and a transparent front door for easy access.

Cargobike Flex Box

Larger box with lid.

Cargobike Flex Kindergarten

Six seats with safety belts as standard.
Transparent front door for easy access.

Cargobike

Cargobike Classic

Classic Electric has been developed and upgraded for almost 20 years. With each new version of this classic, we push the development and technology a notch further. One frame, five different models.

Cargobike Classic Café

Built to serve as your ultimate advertising stand or business tool.

Cargobike Classic

Four seats with safety belts as standard.

Cargobike Classic Dog

Two seats with safety belts and a front door for easy access.

Cargobike Classic Box

Larger box with lid.

Cargobike Classic Kindergarten

Six seats with safety belts as standard.
Front door for easy access.

Cargobike Long Lite

The popular Cargobike Long Lite, a two-wheel box bike that allows you to travel at high speeds, is back in a new edition!

The model has been upgraded with a new motor, new wheels and a re-designed box.

Cargobike Long Lite

Side door and two seats with safety belts as standard.

Cargobike Delivery

Thanks to the low front wheel and longer wheelbase, it is durable and can handle a high front load.

A new creation coming up soon!

We are constantly pushing our boundaries to become
the best Cargo Bike company in the world.

Cargobike - Always on the move

Cargobike of Sweden

is Sweden's largest and oldest supplier of cargo bikes. We continuously develop our products to face the future. All our bikes are electric, DIN 79010:2020, TÜV tested and CE marked.
