

MARCON

ALUMINIUM MUDGUARDS

MUDGUARDS SINCE 1960

Our company is the result of a family business in the bike components field, passed on three generations born 1960.

The production process is combined with trading activity, with a view to guaranteeing high quality products, good service and custom-made solutions.

Our main products are: PLASTIC MUDGUARDS and chainguards, aluminium MUDGUARDS and chainguards, customized brackets and parts for e-bike.

We have a flexible structure thanks to which we are able to meet big customers' requests as well as small ones. Furthermore, our long time experience enable us to better understand customers' needs and to find quick and effective solutions.

The company mission is to keep ensuring high quality standards without forgetting how important customization is, in addition to put more and more effort on e-bike solutions.

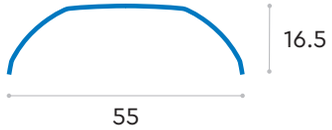

ALLROAD MOUNTAIN E-BIKE

PROUDLY MADE IN ITALY

PRIMO is our newest product. Driven by our proven experience in aluminium-made articles, we developed a new shape according to the latest market's taste and trends.
Starting from raw aluminium sourcing, passing trough all the accessories production and ending with the powder painted coating – everything is proudly **MADE IN ITALY**.
The key of our success? Strict quality controls and high level of customization.

DETAILS & OPTIONS

BOTTOM BRACKET

Multiple variations are possible.
Holes can be rounded, oval or long.

Straight cut

Recessed cut

REAR LIGHT AND REFLECTORS

We can provide fitting holes for nearly every reflector available in the market and for many integrated lights.

Busch & Müller Xeltec rear light

HEAD LIGHT

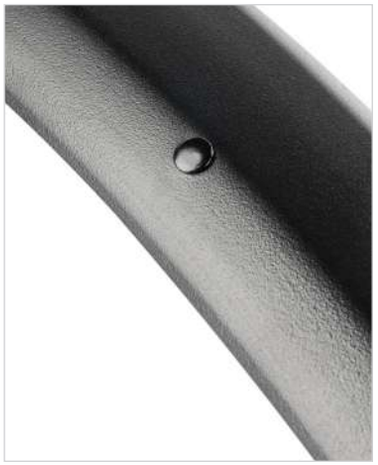

We are developing a front tail able to fit dynamo head lights.

CABLE ROUTING

We can provide flexible positioning of the pipe for electric routing.

EDGE CAP

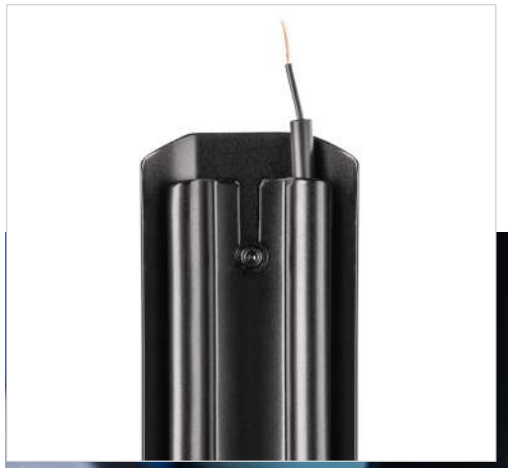

Even if we can supply PRIMO without, this is the perfect accessory to give your bike a finished and superior quality look.

W-RAIL

A second layer of aluminum allows the cable routing while increasing the stiffness of the profile even more.
